DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 25 August 2006 has been entered.

REASONS FOR ALLOWANCE

2. Claims 1, 2, 3, 5, 6, 8, 9, 10, 11, 13 & 14 are allowed.

3. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1, 2, 3, 5 & 6 is the inclusion of the limitations of a recording apparatus including timer for measuring recording downtime when recording operation is interrupted and resumed, applying drive pulses before resumption of the recording operation in accordance with the length of recording downtime, temperature sensor for detecting temperature before interruption and *heating recording head to a temperature detected by temperature sensor prior to interruption*, number of drive pulses is increased as the recording downtime becomes longer. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 8, 9, 10, 11, 13 & 14 is the inclusion of the method steps for recording an image that includes measuring a recording downtime when recording operation is interrupted, applying drive pulses before resumption of the recording

operation in accordance with the length of recording downtime, detecting recording head temperature before interruption & *heating recording head to temperature detected prior to interruption of recording operation and further in accordance with length of measured downtime*, number of drive pulses to be applied to the recording head is increased as the recording downtime becomes longer. It is these steps found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
